

EXPANDO®

SELF-FITTING, EXPANDABLE PROTECTIVE OVERSLEEVES

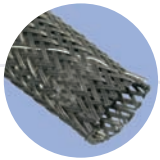

Expando® PT Plus

- Operating temperature from -70°C up to +125°C
- UL recognized
- Fray-resistant
- Available in black, blue, grey, natural, orange & yellow
- Nominal sizes available from 1/8" to 2-1/2"

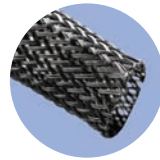

Expando® PN

- Operating temperature from -70°C up to +220°C
- Expandable design
- Excellent abrasion resistance
- Highly flexible
- Available in black, blue, grey, natural, orange & yellow
- Nominal sizes available from 1/8" to 1-3/4"

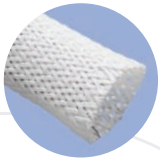

Expando® FR Plus

- Operating temperature from -70°C up to +125°C
- Fray-resistant
- UL recognized
- Balances mechanical and thermal properties
- Nominal sizes available from 1/8" to 2-1/2"

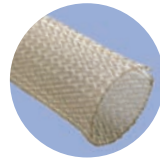

Expando® DM

- Operating temperature from -70°C up to +125°C
- Highly flexible
- UL recognized
- Nominal sizes available from 1/8" to 2"

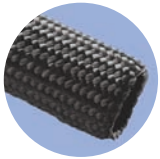

Expando® HR Plus

- Operating temperature from -70°C up to +150°C
- UL recognized
- VW-1 flame requirements
- Fray-resistant
- Nominal sizes available from 1/8" to 1-3/4"

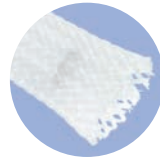

Expando® 686 DM

- Operating temperature from -70°C up to +200°C
- UL recognized
- Halogen free
- Meets FAR Part 25
- Nominal sizes available from 1/8" to 2-1/2"

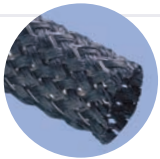

Expando® M

- Operating temperature from -40°C up to +150°C
- High aesthetic appeal for visible applications
- Nominal sizes available from 1/4" to 3/4"

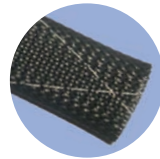

Expando® PFA

- Operating temperature from -70°C up to +260°C
- Self-extinguishing
- Meets FAR Part 25
- Nominal sizes available from 1/8" to 1-1/4"

Expando® QT

- Operating temperature from -40°C up to +150°C
- Expandable and self-wrapping versions available
- Provide noise suppression and abrasion protection
- Nominal sizes available from 1/4" to 1-1/2"

Expando® TCP-V0

- Operating temperature from -50°C up to +125°C
- Retains flexibility at low temperatures
- Rot free
- Does not trap heat or humidity
- Ideal for Railway applications
- Nominal sizes available from 1/8" to 1-3/4"
