

Are you out of HCFC-141b?

Use Verizane™ — HCFC-141b Replacement Chemistry

The Right HCFC Replacements

Electro-Wash® VZ

The economical, non-ozone depleting, nonflammable universal cleaner

- Nonflammable
- Regular strength
- Ozone safe
- Removes organic and ionic soils: one cleaner for all soil types

Applications:

- Cleaning printed circuit boards and control systems, electronics and electrical equipment; metal cleaning
- Maintaining Programmable Logic Controllers (PLCs), meters/measurement devices
- Removing oils from pneumatic and hydraulic assemblies, motors and transformers, hand tools

ES6100 12 oz / 340 g aerosol

Flux-Off® VZ

The economical, non-ozone depleting, nonflammable flux remover

- Nonflammable
- Regular strength
- Ozone safe
- Quickly removes rosin-based and low residue no clean flux

Applications:

- Removing flux during post soldering applications
- Cleaning printed circuit boards, component leads, and surface mount devices/pads; screens and stencils; hand tools; meters and test equipment

ES6200 12 oz / 340 g aerosol

Pow-R-Wash™ VZ

The economical non-ozone depleting, nonflammable contact cleaner safe for use on live circuits

- Nonflammable
- Regular strength
- Ozone safe
- Removes encrusted oxides, dirt, carbon and other contaminants from contacts

Applications:

- All contact cleaning, repair and maintenance
- Cleaning of metal contacts, plugs and sockets, solenoids, potentiometers, and rheostats
- Removing oxidized soils from switches, relays, circuit breakers, motors and armatures

ES6300 12 oz / 340 g aerosol

Have a specific application?

Whether you're looking for specific cleaning chemistries, trying to work simpler and safer, looking to increase your productivity, or just save money, ITW Chemtronics® has the right product for your application.

We can show you how to reduce your inventory and vendors, improve your processes, and achieve cost savings while providing you with all of the product support and training you will need.

An ITW Chemtronics® representative will work with your plant or process engineer to compile a company profile to determine the best course of action. Our sales and technical services staff are ready with expert guidance on selecting the right product for your applications.
