

## Inside and Out,

**9**  
**Insecticides**  
Fast-acting, powerful insecticides that are specially formulated for industrial and institutional use. All EPA-registered, these include insecticides, wasp and hornet killers, and insect repellents.

**11**  
**PW Cleaner/Degreaser**  
A low foaming, powerful, neutral pH degreasers designed for high pressure washers and steamers. An environmentally friendly non-caustic, non-toxic formula.

**13**  
**Mortar & Concrete Repair**  
A variety of products designed to prevent damage caused by ice and water or repair cracks and joints in concrete and mortar.

**10**  
**Long Term Outdoor Protectant & Lube**  
A heavy, wax-duty rust inhibitor that is formulated to stand up to the most severe weather conditions. Works on all metals, rubber, and most plastic and painted surfaces.

**12**  
**Coil Cleaner**  
A heavy-duty water-based foaming coil cleaner designed to remove stubborn grease, grime and chloride build-up that can accumulate on refrigeration and A/C coils.

**14**  
**Roof & Gutter Repair**  
Flexible, watertight seals result from this family of products that include asphalt roof cement and butyl rubber sealant and caulk.

**Sprayon**

**WHITE LIGHTNING**

## The One Source For Facility Maintenance

Whether you are maintaining your manufacturing operations and facility or building a new commercial infrastructure, Krylon Products Group has the products you need . . . all from one source.

Paints • Chemicals • Cleaners • Caulks • Applicators

## From Start to Finish...

**1**  
**Exterior Latex Paint**  
This flat finish paint can be applied to a variety of surfaces including aluminum, vinyl, wood, masonry, and primed metal.

**3**  
**Heavy Duty Block Filler**  
A pure acrylic, resin block filler for use on interior and exterior poured and pre-cast concrete, concrete block, and cinder block. Has a VOC of 15 g/L.

**6**  
**Iron Guard®**  
A low-VOC (<100 g/L) coating that can be applied direct to new and clean metal without a primer. This breakthrough formula has outstanding adhesion and is resistant to chemicals and corrosion.

**2**  
**Fusion For Plastic™ Paint**  
A no-prep, superbond paint for plastic. Great for retouching outdoor utilities, PVC pipes, plastic conduit, vinyl molding and siding.

**4**  
**Line-Up® Marking Paint**  
Delivers fast-drying, long-lasting durability on outdoor pavement. Available in white, yellow, handicap blue, firelane red, and cover-up black.

**7**  
**Stain Fix™**  
Ideal stain and odor blocker or a quick dry primer. Can be used to seal walls or surfaces and can be topcoated with latex or alkyd paint.

**5**  
**Rust Tough®**  
Bulk coating can be applied direct to metal on new and clean substrates, providing long-lasting protection against corrosion with one coat. Aerosol paint is ideal for touch-up jobs or covering hard-to-reach areas.

**8**  
**Water-Based Epoxy**  
A high performance coating that can upgrade surfaces painted with conventional coatings to a superior protection system without lifting and bleeding.

**KRYLON**  
INDUSTRIAL

# Floor to Ceiling... Wall to Wall... We've Got You Covered!

## Paints, Cleaners, Caulks, and Lubricants - We Have the Solutions for You!

**15**  
**Dry Fall**  
Available in alkyd and latex formulas, these intense white coatings deliver 83% light reflectance and fall dry in 8 to 10 feet.

**17**  
**Interior Latex Paint**  
Durable acrylic paint available in flat, eggshell and semi-gloss finishes. Can be tinted to your color specifications.

**19**  
**Rust Tough®**  
Bulk coating can be applied direct to metal on new and clean substrates, providing long-lasting protection against corrosion with one coat. Aerosol paint is ideal for touch-up jobs or covering hard-to-reach areas.

**21**  
**Line-Up® Marking Paint**  
Delivers fast-drying, long-lasting durability on indoor surfaces. Ideal for warehouse aisles. Available in water-based and solvent-based formulas.

**23**  
**Cleaners**  
**Neutra-Power and Neutra-Force**  
A family of products as broad ranging as your cleaning needs, from heavy grease removal to general purpose cleaning and damp mopping. Most are UL® Classified for slip resistance.

**25**  
**711® The Protector™**  
A general maintenance penetrant unmatched in its versatility and quality. Able to penetrate, lubricate, demulsify and inhibit corrosion. Safe on metal and plastic surfaces.

**27**  
**Restroom Products**  
A broad family of products that includes handsoaps, bowl cleaners, stainless steel and glass cleaners, and EPA-registered Carrol® disinfectants.

**29**  
**Stop Gap!™**  
Expanding insulating foam that, when cured, can be trimmed, shaped, sanded, painted or stained. Great for use on openings and gaps, masonry and concrete, corners and T-joints, wood, metal, glass and most plastics.

**31**  
**RTV Silicone Sealants**  
Made with 100% silicone, these sealants create a flexible, watertight seal with minimal shrinking. Will not crack or crumble.

**16**  
**Dura-Top®**  
A self-leveling, 100% solids, low odor coating that provides a high gloss, seamless surface that is hard wearing and durable. A non-slip texture can be added if desired.

**18**  
**Reflect-A-Lite™**  
This clear coating directly reflects flashlight or headlights, making items extraordinarily visible in the dark or under emergency lighting conditions.

**20**  
**Iron Guard®**  
A low VOC (<100 g/L) coating that can be applied direct to new and clean metal without a primer. This breakthrough formula has outstanding adhesion and is resistant to chemicals and corrosion.

**22**  
**Tough Coat®**  
This industrial formula is ideal for light- to heavy-duty painting projects, delivering a tough, protective coating that resists chipping and peeling. Available in more than 50 colors and primers. The perfect finishing touch for motor repairs.

**24**  
**Safety-Syn Lube**  
Specifically developed to meet the demands for a safe, low-HMIS rating, non-flammable lubricant. Modified with P.T.F.E. to enhance its lubricity.

**26**  
**Flash Free Safety Solvent & Degreaser**  
A fast-acting solvent that penetrates easily, evaporates quickly, and leaves no residue. Its excellent cleaning properties make it ideal for removing grease, dirt, wax and metallic particles prevalent in most industrial plants. Non-conductive and non-flammable.

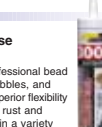

**28**  
**Industrial Lubricants**  
Ideal for preventive and corrective maintenance in industrial applications, keeping equipment in service longer and reducing costly breakdowns caused by worn and dirty parts. Enhanced formulas with P.T.F.E.

**30**  
**FLAME Buster™**  
One-component caulks and sealants designed to prevent the spread of fire, smoke, toxic gases and high temperatures.

**32**  
**3006™ All-Purpose Adhesive Caulk**  
Applies a smooth, professional bead without gaps or air bubbles, and once dry, maintains superior flexibility and elasticity. Resists rust and mildew and available in a variety of colors, although it can also be painted or stained.
