## **Luxo's New TRU Trinocular 23mm Microscopes Enable Simultaneous On-Screen and Eyepiece Viewing**

**New Product:** System 373 TRU Trinocular 23mm Microscopes

**Design:** Luxo

**Manufacturer:** Luxo

**Product Applications:** Inspection and assembly

**Product Description:** Luxo extends its industry-leading Trinocular Microscope line to include a new range of **TRU Trinocular 23mm Microscopes**. Luxo's new **System 373 TRU Trinocular Microscopes** enable users to simultaneously view images on screen and through the eyepieces.

Luxo's complete line of System 373 Microscopes have a digital magnification of 400X and offer 25% greater magnification, 15% greater field of view and 20% greater working distance than traditional System 350 models. Such traditional System 350 models provide an optical magnification of 225X while System 373 microscopes provide a total optical magnification of 270X. Similarly, System 373 Microscopes have a 15% greater viewing area than traditional System 350 models.

### **Construction and Finishes:**

**System 373 TRU Trinocular Microscopes** feature heavy-duty aluminum housings and come standard with 10X, 23mm widefield eyepieces and eyeshields. The microscopes rotate 360° in their focus mounts. Models have a zoom range of 0.7 to 4.5 giving them a magnification range of 7X to 45X. The zoom ratio of 7:1 is adjusted via dual graduated control knobs located on the side of the head. **System 373 TRU Trinocular Microscopes** can be used with Luxo single boom stands or dual boom ball-bearing stands.

**Ordering Information:** Literature, specifications and pricing for **System 373 TRU Trinocular Microscopes** is available from Luxo Corporation, 200 Clearbrook Road, Elmsford, New York 10523. Telephone: (914) 345-0067. Fax: (914) 345-0068. Visit Luxo Corporation at: [www.luxous.com](http://www.luxous.com).

Luxo is a worldwide pioneer in multi-adjustable, spring-balanced task lights, illuminated magnifiers and microscope systems, since 1937.
