

# The WSB 150 Solder bath

The WSB 150 solder bath from Weller is optimally suited to tin coating and preparation of soldering components. It has a temperature range of 50°C - 550°C with a heat output of 150W, making the WSB 150 solder bath an ideal accessory to the Weller WSD 150 soldering station. To guard against dripping solder residue, the solder bath can be placed in a V2A tray, supplied as an optional extra.

## TECHNICAL DATA

Supply voltage	24V	Dimensions	150 mm x 120 mm x 65 mm (L x W x H)
Power rating	150 W	Solder bath	58 mm x 33 mm x 19 mm (L x W x H)
Warm up time	approx. 11 min, (50°C - 350°C)		
Temperature range	50°C - 550°C
