

ASP-81 Adjustable Rail Screw Feeder

- New and improved version is more powerful and sturdy
- No rail changes necessary; adjusts to accommodate screw size
- Single feeder will feed screws from sizes #000 - #10
- Replacement product for discontinued ASP-60

Specifications

ASG Part No.	Model No.	Size	Applicable Screw Length (in)	Weight	Screw Feeding Speed	Power	Required Bits
67432	ASP-81	5"(W)x7"(L)x6"(H)	.748 up to 19mm (under hand)	5.5 lbs	2 screws/sec	100-240VAC Input 12 VDC Output	Standard

Key Features & Information

- Easy adjustment of vibration time, amplitude, and operation shut-off delay
- Smoother vacuum pick-up operation when compared to the ASP-60
- Adjustable sweeping brush and bit guide allows use of standard diameter bits
- Bi-directional brush rotation provides fast removal of improperly positioned screws (jams)
- Most standard power bits can be used
- Comes standard with AC adaptor, adjusting wrench, shim set, additional stopper and gauges* all conveniently held in lid
- Optional accessories include bit magnetizer and bit magnetizer ring**
