

Whatever your job, whatever your industry, whatever your challenge – Williams tools never flinch. Since 1882 Williams has met the harshest challenges of the most demanding industries. Williams was among the first manufacturers in the world to offer mass produced drop-forged tools, a 15° angle wrench, and heavy-duty slugging wrenches. A century and a quarter later we continue to offer unique and innovative products for those industries, whose demands are greater than ever.

Williams Tools:
our heritage,
your future.

Bahco, inventor of the original adjustable wrench, is the world leader in adjustable wrenches, ergonomics, and cutting tools. We pioneered the bi-metal saw blade, an extraordinary achievement that melds two different metals into one saw blade that incorporates the best characteristics of each. We also know that each tool has to fit the hand, and have applied the science of Ergonomics to hand tool design in a unique 11-step scientific process called ergo[®]. Bahco offers quality tools, saws and accessories that are synonymous with safe, comfortable, and productive performance.

Bahco Tools:
work smarter –
faster – better.

No one manufactures and sells more professional-grade torque products. We are the world's largest supplier of industrial quality torque tools, and a respected leader in precision torque, force and tension calibration systems. CDI is ISO 9001 certified and a pioneer in the development of digital torque measuring instruments. So whether it's torque wrenches and drivers or torque testing and calibration equipment, all meet the most exacting standards.

CDI Torque Products:
torque without compromise.

Product Line Card

A Tradition of Trust

1. Industrial Maintenance Sets

- Machine Repair Sets
- Construction Equipment Repair
- Electricians' & Electronics Set
- Metric Tool Sets

2. Industrial Tool Storage

- Professional Series
- Heavy Industrial Series
- Commercial Series
- Super-Value Series
- Service Carts
- Job Site Boxes
- Hand Carry

3. Ergonomically Designed Hand Tools

- Adjustable Wrenches
- Pliers
- Screwdrivers
- Handsaws & Hacksaw Frames
- Ratchets

4. Wrenches

- Combination
- High Visibility Combination
- Ratcheting Combination
- Flex Head Combination
- Double Head Open End
- Service
- Double Box End
- Offset Box End
- Ratcheting Box End
- Flare Nut, Adjustable
- Construction, Structural Box
- Tubular, Striking, Spanner
- Hex keys

5. Sockets & Drive Tools

- 1/4" to 1-1/2" Drive
- Sockets & Drive Tool Sets
- Rugged Case Tool Sets
- Compact Case Tool Sets
- Drive Tools & Ratchets
- Extensions, Adaptors
- Impact Sockets
- Deep, Shallow & Bit Sockets
- Universal Sockets
- Crowfoot Wrenches
- Turbosockets
- One Piece Impact Hex Bit Stubby Drivers

6. Pliers

- Adjustable Joint Pliers
- Superjoint Pliers
- Groove Joint Pliers
- Side Cutting Combination
- Linesman's & Diagonal Cutting
- Long Nose & Locking
- Electrical, Wire Twister & Cutter
- Snap Ring & Retaining Ring Pliers

7. Hammers, Punches, Chisels & Prybars

- Deadblow, Powerdriver, Ball Pein
- Claw/Brass/Soft face/Sledge
- Center, Pilot, Pin, Solid, Long Taper, Center, Prick, Brass Drift Punches
- Cold, Pointed, Slitting, Mason's, Extra Long, Rivet Buster, Cape, Diamond Point, Round Nose Chisels
- Pry Bars/Pinch Bars

8. Screwdrivers

- Thru-Blade Screwdrivers
- Robertson & Torx Screwdrivers
- Phillips & Slotted Screwdrivers
- Magnetic Ratcheting Screwdrivers
- Ball End Screwdrivers
- Nutdrivers & Hex Bits

9. Clamps & Pipe Tools

- C-Clamps & Pipe Wrenches
- Flange Jacks & Chain Pipe Tongs
- Pipe Chain Wrench
- Tubing Cutting & Flaring Tools
- Nipple Kits/Hose Cutter

10. Pullers & Industrial Hydraulics

- Pullers
- Stud, Nipple Remover/Installer
- Cylinders
- Hand, Air, Electric Pumps
- Shop Press, Toe Jacks
- Spreaders, Bottle Jacks
- Maintenance Kits, Accessories

11. Bandsaw Blades

- General Purpose
- Production Cutting
- Bimetal, Carbide, Carbon

12. Tools for the Trade

- Gravity Clamp & Handsaws
- Bowsaws
- Hacksaw Frames & Blades
- Portaband Blades
- Holesaws & Reciprocating Blades
- Files & Rotary Burrs
- Scrapers & Utility Knives
- Aviation & Tin Snips, Bolt Cutters
- Tape Measures
- Refrigeration Tools
- Borescope/Multimeter
- Eyebolts, Extractors, Feeler Gauges
- Utility Tools / Creepers
- Tool Pouches and Belts

13. Insulated Tools

- Screwdrivers/Nutdrivers
- Pliers & Wrenches
- Ratchets & Sockets
- Hacksaw Frames, Cutting Tools

CDI Torque Products

1. Calibration Systems

2. Torque Testers

3. Electronic Wrenches

- Computorq II & Computorq3
- Torque & Angle & Electronic Dial

4. Torque Screwdrivers

- Micro-Adjustable & Pre-set
- Torque Limiting T-Handle
- Fixed Setting & Torqy

6. Mechanical Wrenches

- Dial Torque Wrenches
- Comfort Grip Micrometer Adjustable
- Quick Set Split Beam
- Interchangeable Head & Pre-set

7. Torque Multipliers
