MIDAS™: ADDING VERSATILITY TO DIGITAL IMAGE VIEWING AND CAPTURE

New Product: MIDAS™

Manufacturer: Luxo

Product Applications: Digital handheld inspection system for inspection and assembly applications.

Product Description: Luxo's new **MIDAS™** (Microscope Inspection Digital Application System) is a universally-positionable digital inspection system which provides a versatile way of viewing, capturing and documenting images from any direction or angle. **MIDAS™** features a polarizing lens, 1.3 MP USB Camera and 1/4" Color CMOS image sensor to provide a magnification range of 10X to 200X. The system is ideal for assembly, repair, inspection, leak detection, document authenticity, criminology, museum and artwork restoration, currency verification and gemstone and mineral examination.

Six white LEDs provide abundant illumination while a polarizing lens prevents glare and reflection by reducing the wavelengths of light mirrored through the optics of the camera. **MIDAS™** has a 150mm working distance at 10X magnification and a 13mm working distance at 50X magnification. **MIDAS™** is operated using a handheld trigger which permits hi-resolution, 1280x1024 (HxV) pixel, image capture.

Construction & Finishes: **MIDAS™** can be used alone or is available with either a 13.8 inch gooseneck arm or an adjustable boomstand with a 9.8 inch horizontal and 11.6 inch vertical reach.

MIDAS™ is UL/cUL listed and carries a five-year warranty.

Ordering Information: Literature, specifications and pricing for **MIDAS™** is available from Luxo, Five Westchester Plaza, Elmsford, New York 10523. Telephone: (914) 345-0067. Fax: (914) 345-0068. Visit Luxo on the web at: www.luxous.com.

Luxo is a worldwide pioneer in multi-adjustable, spring-balanced task lights, illuminated magnifiers and microscope systems, since 1934.
