GWS Systems brings the human factor into the workspace.

Dynamic pioneer

GWS Systems is one of the leading manufacturers of industrial workstations and furnishings. We provide the physical infrastructure for major industry sectors all over the world. Our main markets are electronics and telecommunications, engineering and vehicle industry, assembling industry, R&D centers, and industrial laboratories. We also supply homes and public buildings.

Global solutions locally

Being a truly global player means that you can receive local support and customer service anywhere in the world, quickly and efficiently in your own language. We have offices in North America, Asia, and Europe as well as an extensive network of qualified dealers in more than 20 countries. Our international activities represent 65% of our turnover.

Seeing the human perspective

- Customer-oriented – expert help always available
- Premium quality – maximum usability
- Global – excellent service locally
- Ergonomic – increased productivity
- Versatile – easy to modify and update

Human-centered design

Sovella® workstations bring the human factor into your workspace. They optimize the operator's movements, making work less strenuous and eliminating stress injuries. Increased comfort leads to higher productivity, and substantial cost savings due to fewer sick days. Adapting our solutions reduces the required floor space significantly.

Tailored to suit your needs

We study your processes and production methods carefully to create unique workspace solutions. The modular design enables you to integrate our products fully with your current layout. You can easily modify them using our wide range of interchangeable accessories. Sovella® workstations are easy to adjust, and each detail embodies practical thinking. Thus all the equipment you need in your work is comfortably within your reach.

Quality brings usability

Sovella® furnishings offer uncompromising quality with real usability. Sturdy, practical structure, detailed finishing, and stylish looks are the ingredients that make up our top-class product. Ideal materials and careful testing methods ensure that our solutions work smoothly and last long even with constant maximum load.

Extensive product range

Each working environment has its own requirements, and a single solution is simply not enough for everyone. We offer the widest range of standard products and solutions for diversified industry sectors. The large variety of interchangeable accessories ensures that you get everything you need from one place.

Sovella® product family

- Workspace solutions
- Storage solutions
- Trolleys
- Assembly lines and flow through shelving

Long story in short

GWS Systems has a long history in industrial furniture design and manufacture, and over two decades of experience in ergonomic workspace development. Our design and manufacturing facilities are based in Jyväskylä in Finland. However, with our main market areas in Europe, North America and China, we are truly an international company. We are proud of our past achievements, but our eyes are set on the future. We look forward to bringing our human-centered design even closer to you.
